Great Lakes Beef Connection

Welcome to the First Annual Great Lakes Beef Connection Female Sale. We are offering a great set of females who come from the heart of each of our herds. From a genetic standpoint, all the females come from multiple generations of AI, sell with Genomic Enhanced EPDs (GEPDS), and are evaluated genetically on the IGS database. Physically the females are evaluated critically for feet and leg structure, udder quality, and fleshing ability. We guarantee the females will work in many environments and will offer longevity and productivity for years to come.

The sale format will be set up as a video sale and all females will sell individually in catalog order. Please feel free to come by and view the females anytime prior to the sale. If you need any assistance please do not hesitate contacting John or any of the numbers listed in the catalog. We appreciate your interest in our program.

Blessings,
John, Brian, Steve, Andy and our families
